

#DENOG12 CLOSING

GOODBYE FROM THE PROGRAM COMMITTEE

PC REVIEW

- 2 parallel zoom meeting rooms
- All speakers & heralds arrived on time
- All talks of day 1 are already released on youtube
 - Slides will follow this week
- 11h30 total talk time

Thanks to all presenters & submitters!

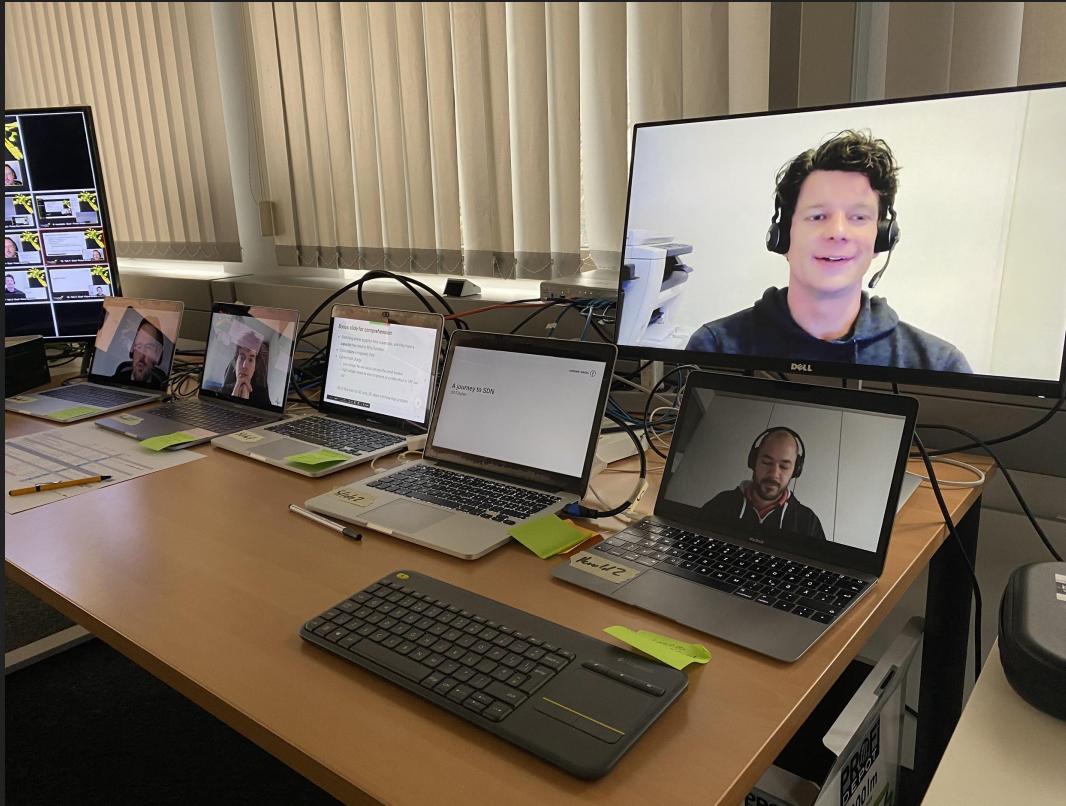

Thanks to all heralds!

Video Setup

Video Streaming

- We had 4 weeks to get everything up & running
- So, how do you build a online video conference?

6 Laptops running Zoom (3 per Stage)

Feed everything into a beefy computer

- AMD Ryzen 7 3700X
- GTX 2070 Super
- 32 GB RAM
- 2x1T SSD
- Black Magic Decklink Quad (4x HDMI)
- Black Magic Decklink Duo 2 (4x SDI)
- Elgato Game Capture HD60 pro

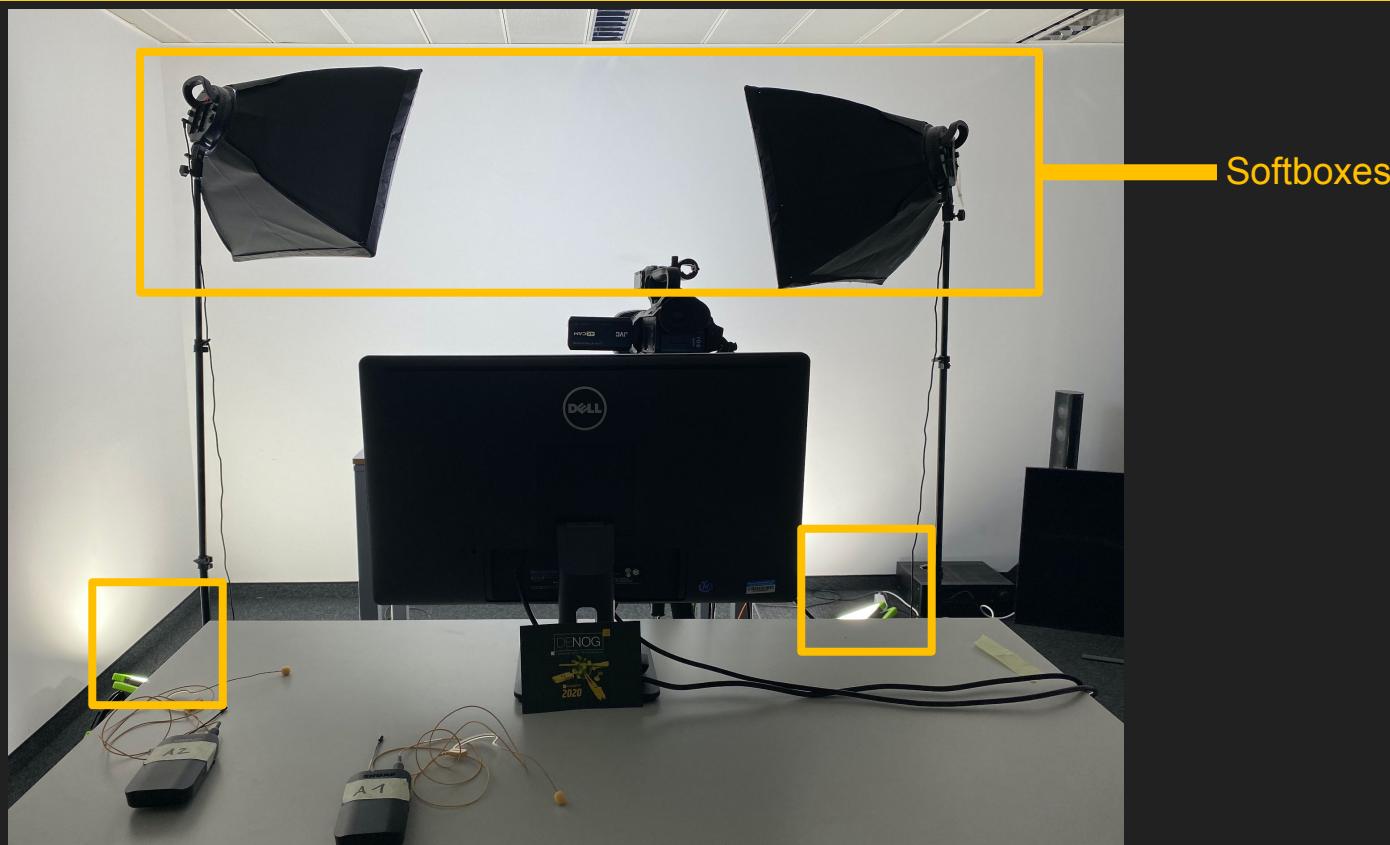

Mix everything with OBS & Stream to Venueless CDN

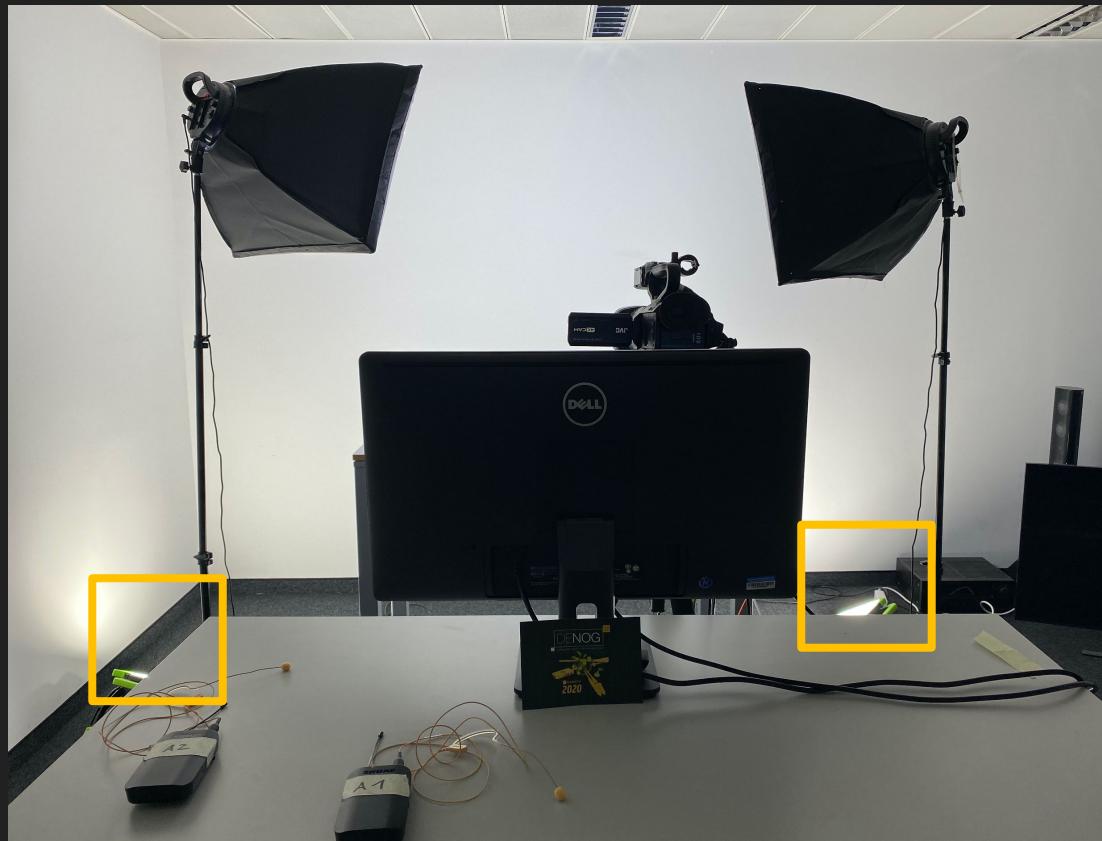

Elgato Stream Deck to switch Scenes

Local Studio

Let there be light!

Construction Lights as there was not enough light

Wireless Mics

Studio is ready, let's start the show!

or....

Phew, that was the Backup Location

CHAOS IN MÜNCHEN

Stromausfall: Auch Moosburg betroffen

München - Chaos in München! Nach dem technischen Defekt auf einer Freileitung zwischen Unterföhring und Moosburg waren viele Münchner und Bürger aus dem Umkreis von dem Stromausfall betroffen.

OK, we have power, everyone quiet!

Office is informed...

Let's close the window...

DON'T YOU DARE!

A few heart attacks later

WE'RE LIVE!

Summary

- Everything went better than we expected
- 1x Audio Problems (2min)
- 2x zoom crashes
- Zoom is not ideal
 - a lot of clicking & pinning involved
 - Not really deterministic behavior
 - If someone drops out everything goes crazy
- BUT: It got the job done
- We need a better audio routing setup, monitoring non-live feeds was impossible

Summary

- We now have a great setup for future conferences
- The Setup can be easily reduced for local meetups
- Running a local video studio with a minimal headcount is hard and stressful

Intro Music

Throwback CCC Camp 2019

Thorsten Schröder CC-BY 2.0

Know that song?
